ABOUT THE

about the
project

TEENS

IN'EET (education, employment and training)

The aim of this ESC volunteer project is to promote the values of solidarity and inclusion, to get young people to know each other, to value their abilities and their decision-making skills, and to undertake a journey towards the exercise of full citizenship, equality, cohesion and social equity.

We wish to approach with these young people in transition to adulthood, the development of their self-determination, their potentialities, their skills and personal interests and, on the other hand, an exercise of awareness of the opportunity to feed aspirations, dreams, obstacles and to project the future for themselves.

NOT IN

The NEET
situation

In view of the large number of young people in situations of early school leaving and inactive, who are neither working nor studying - NEET generation (Not it Education, Not in Employment, Not in Training), we've called this project **TEENS IN'EET, aimed at recovering deficits in school and vocational qualification, through the acquisition of social, relational, technical and professional skills - for the volunteers and for the target people of the project.**

THE CITY OF THE OPEN DOOR

- Braga is situated in the north of Portugal, with a total area of 54km² and a population of 181,494. With more than two thousand years of history, Braga began in Ancient Rome Period, since it was founded in 16 b.C as **Bracara Augusta** - in honor of the Roman emperor Augustus.
- Braga has a vast cultural heritage, whose ex-libris is the sanctuary of Bom Jesus do Monte, UNESCO world cultural heritage. Braga's long history is visible in its monuments and churches (which you'll find...they're a lot), exhibiting various styles, from Roman to Baroque.
